

TOP SECRET

MEMORANDUM FOR THE EXECUTIVE SECRETARY, NATIONAL SECURITY COUNCIL:

Subject: Psychological Warfare

Reference: SANACC 304/11 dated 7 November 1947, as amended by
SANACC Decision dated 13 November 1947.

1. The Central Intelligence Agency agrees with the recommendations contained in the reference, with the exception of the specification that there be a Director under the Assistant Secretary of State for Public Affairs. It is the view of the Central Intelligence Agency that the responsibility for directing the activities of the personnel furnished by each participating department or agency and for implementing the policies and plans established by the Secretary of State should be the responsibility of the Assistant Secretary himself.
2. It is therefore recommended that, when the National Security Council considers the recommendations contained in the reference, all mention of a Director be deleted and that its text be amended accordingly.
